

MATERIAL SAFETY DATA SHEET

SECTION 1: Identification of the substance/mixture and of the Company /Undertaking

1.1. Product name/ Trade name	Element 25 Element 50 Element 100
1.2. Material uses	Fire suppressants
1.3. Details of the supplier of the safety data sheet	Stelvio Brands Inc. 1040 Martin Grove Road #17 Toronto, Ontario M9W 4W4 Canada Ph: (905) 290-8961 Email: info@elementfire.com Website: www.elementfire.com

SECTION 2: Hazard Identification

2.1. Classification of the substances or mixture

Index #	Component	CAS NUMBER	EC NUMBER	CLP Classification Regulation EEC no. 1272/2008	DSD Classification 67/548/EEC
//	Potassium Nitrate	7757-79-1	231-818-8	2.14/3 Ox. Sol.3 H272	O; Oxidizer
//	DCDA	461-58-5	207-312-8	//	//
//	Organic resin	9003-35-4	500-005-2	//	//

Adverse physiochemical, human health and environmental effects: No other hazards

2.2. Label elements

General Statements:

P102 Keep out of the reach of children

P103 Read label instructions before use

Precautionary Statement Prevention:

- P210 Keep away from heat/sparks/open flames/hot surfaces. — Do not smoke.
- P221 Take any precaution and keep away from combustible material
- P243 Avoid electrostatic loads
- P250 Avoid crash and strike
- P273 Do not waste the product and/or the casing

Precautionary Statement Response: Fluid Aerosol

- P302+P350+P313 In case of skin contact: may cause redness or irritation. Rinse cautiously with running water. If skin irritation occurs get medical advice/attention.
- P304+P340+P313 In case of inhalation: remove to fresh air and keep at rest in a position comfortable for breathing. Get medical attention for any breathing difficulty.
- P305+P351+P313 In case of eye contact: may cause redness or irritation. Rinse cautiously with running water for several minutes. If eye irritation persists get medical advice/attention.
- P314 Seek medical attention for further treatment, observation, and support if necessary.
- P370+P380 In the event of a fire, evacuate the area and inform emergency services.
- Ignition of FSS Fire Suppression Systems produces a fire suppression aerosol.
- P370+P378 Water may be used as an additional suppression agent, as well as powder extinguisher and/or CO2 extinguisher.

Precautionary Statement Disposal:

- P501 Disposal should be in accordance with applicable national, state and local environmental control regulations.

2.3. Other Hazards

No other hazards

SECTION 3: Composition, Information on Ingredients

Hazardous components: Does not contain dangerous materials as defined by ordinance on hazardous materials.

(Tolerance +/- 1%)

3.1.						
Identification	CAS #	EC #	CLP Classification Regulation EEC no. 1272/2008	DSD Classification 67/548/EEC	%	Comments
Potassium Nitrate	7757-79-1	231-818-8	GHS03 Wng 2.14/3 Ox. Sol.3 H272 EUH 210	O; Oxidizer	≥43	Components of the cartridge are blended and pressed into a highly stable, molded form. Molded composition is contained within a stainless steel/aluminum housing. Polymerized mixture of Organic and Inorganic Salts.
DCDA	461-58-5	207-312-8	//	//	≥32	
Organic resin	9003-35-4	500-005-2	//	//	≥25	
PBT vPvB			N/A N/A			
3.2. Other denomination:			Portable Condensed aerosol extinguishing device			

SECTION 4: First Aid Measures

4.1. Description of first aid measures Body	Extinguishing charge: None. Contact is impossible when the flame inhibitor is assembled. Do not touch the tube of the dispenser during/after use. Medical attention is unnecessary.
Skin Contact / Eye Contact	Fluid Aerosol: after contact, wash/flush immediately with running water. Medical attention is necessary in case of direct contact burns
4.2. Most important symptoms and effects, both acute and delayed	No information available.
4.3. Indication of any immediate medical attention and special treatment needed	Seek medical attention for further treatment, observation and support, if necessary.

SECTION 5: FIRE-FIGHTING MEASURES

5.1. Extinguishing media Suitable extinguishing media: Water. Carbon dioxide (CO2) CO2 or Dry chemical fire extinguishers. In the event of a fire evacuate the area and inform emergency services.	
5.2. Special hazards arising from the substance or mixture Flammability of the product	Do not inhale combustion gases. Beginning of self-ignition phenomena over 300°C (over 572°F). Medical attention is unnecessary. In the event of a fire, evacuate the area and inform emergency services. Ignition of FSS - Fire Suppression Systems produces a fire suppression aerosol.
5.3 Advice for fire-fighters	No specific measures are required as the product itself is a fire fighting agent. Use breathing apparatus if required

SECTION 6: Accidental Release Measures

6.1. Personal precautions, protective equipment and emergency procedures	
6.2. Environmental precautions No particular action: the emission of the extinguishing charge when the fire suppressant is assembled is impossible, as it is inert material. See protective measures under point 7 and 8.	
6.3. Methods and material for containment and cleaning up If the devices come out from packaging they can be safely recovered by hand and should be inspected for damage prior to repacking. Suspect or damaged articles should be labelled and consigned for correct disposal.	
6.4. Reference to other sections See also section 8 and 13	

SECTION 7: Handling and Storage

7.1. Precautions for safe handling Normal attention in handling. In case of unintentional activation of the fire suppressant, wait for the complete aerosol discharge and ventilate the area.	
---	--

Avoid the direct contact of the product with open flames.

7.2. Conditions for safe storage, including any incompatibilities

Store in an environment between -50°C and +80°C (+14°F and +176°F), not exposed to sunlight.

Avoid: shock, electric currents, static discharge, excessive heat and extended periods of storage at temperature greater than 80°C exposure to sunlight.

Packaging in cardboard boxes; do not pile the boxes higher than 2 mt

Medical attention is unnecessary.

7.3 Specific end use(s)

None in particular

SECTION 8: Exposure Controls, Personal Protection

8.1 Control parameters

Potassium nitrate - Index: N/A, CAS: 7757-79-1, EC No: 231-818-8
DCDA - Index: N/A, CAS: 461-58-5, EC No: 207-312-8
Organic Resin - Index: N/A, CAS: 9003-35-4, EC No: 500-005-2
TLV TWA: N.A.

8.2 Exposure controls

Respiratory protection

Ventilate area completely after discharge. Do not enter the area prior to complete venting of enclosures. Use filter mask as necessary during clean-up

Hand protection

Wear gloves if necessary

Eye protection

Safety glasses are advisable if necessary

Skin protection

N/A

Personal protection:

No individual protection.

Occupational exposure limits:

Stick to the instructions legible on the product and inside each packaging box.

Environmental exposure controls:

No specific occupational exposure limit.

No information available.

SECTION 9: Physical and Chemical Properties

9.1. Information on basic physical and chemical properties

Appearance and odor of aerosol:

Beige to white in color.

Odorless.

Auto-ignition temperature:

about 350°C (about 662°F)

Solubility in water:

Slightly soluble

Appearance of device:

steel cylinder High up to 330 mm in length and of mm 33 diameter

Extinguishing charge physical state:

from 20°C solid to 0°C solid (from 62°F solid to 32°F)

Usability Temperature:

-140°F to +320°F

Granulometry:

From 2 to 4 microns

Steam:

None

Conductivity:

Non conductor

Fluid Aerosol physical state:

Gaseous

Exit temperature:

high, safety distance from supply source 1mt

9.2. Other information

Conductivity

Nonconductor up to 100.000 Volt

Electrostatic Discharge

None

Usability Humidity

up to 98 % U.R

Corrosiveness	None
Thermal Shock	None
Residue after use	Negligible

SECTION 10: Stability and Reactivity

10.1 Reactivity.

No specific test data related to reactivity available for this product or its ingredients.

10.2 Chemical stability.

The product is stable under normal storage and temperature conditions.

10.3 Possibility of hazardous reactions.

None identified. During use no dangerous decomposition products are produced.

10.4 Conditions to avoid.

No specific data

10.5 Incompatible materials

10.6 Hazardous decomposition products:

None

Note: These devices are extremely stable below 125°C. They should be protected from fire, sources of electrical power, shock and high temperatures.

SECTION 11: Toxicological Information

11.1. Information on toxicological effects

Toxic by-products of combustion are extremely low.

Main by-products are listed below with 15 minute TWA values for a concentration of 50gr/m3:

Gas	15 minute Time Weighted Average in parts per million
CO (carbon monoxide)	57 ppm
NOx (nitrogen dioxide)	<5 ppm
Aerosol (particulates)	8,5 mg/m3

General : No known significant effects or critical hazards.

Carcinogenicity : No known significant effects or critical hazards.

Mutagenicity : No known significant effects or critical hazards.

Teratogenicity : No known significant effects or critical hazards.

Carcinogenicity : No known significant effects or critical hazards.

Reproductive toxicity : No known significant effects or critical hazards.

Developmental effects : No known significant effects or critical hazards.

Fertility effects : No known significant effects or critical hazards.

Symptoms related to the physical, chemical and toxicological characteristics

Eye contact No specific data

Skin contact No specific data.

Ingestion No specific data

Inhalation No specific data.

Delayed and immediate effects and also chronic effects from short and long term exposure: N/A

SECTION 12: Ecological Information

12.1 Toxicity

These devices present no ecological hazards.

12.1.1. The aerosol produced after ignition has the following characteristics:

ODP Ozone Depletion Potential = 0
GWP Global Warming Potential = 0
ATL Atmospheric Life Time = negligible

12.2. Persistence and degradability No information available.

12.3. Bio accumulative potential No information available

12.4. Mobility in soil No information available

12.5. Results of PBT and vPvB assessment

No PBT information available.

No vPvB information available

12.6. Other adverse effects No information available.

SECTION 13: Disposal Considerations

13.1. Waste treatment methods

Disposal should be in accordance with applicable national, state and local environmental control regulations.

SECTION 14: Transport Information

14.1. UN Code # ADR-RID-AND-IMDG-IATA	UN 0432
14.2. Name of UN ADR-RID-AND-IMDG-IATA	Articles, pyrotechnic for technical purposes
14.3. Hazard Class ADR-RID-AND-IMDG-IATA	Classification 1.4S
14.4 Packing Group ADR-RID-AND-IMDG IATA	II Passenger aircraft rail: 25kg Cargo aircraft: 100kg
14.5. Environmental hazards Environment Marine pollutant	NONE NO
14.6. Special precautions for user	The goods should be transported in the original packaging and in any case in packagings made of material resistant to their content and not likely to generate reactions.
14.7. Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code	N/A

Division 1.4S articles present no significant hazard as packaged for transport

SECTION 15: Other Regulatory Information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Dir. 67/548/EEC (Classification, packaging and labelling of dangerous substances).

Dir. 99/45/EEC, (Classification, packaging and labelling of dangerous preparations).
Dir. 98/24/EC (Risks related to chemical agents at work). Dir. 2000/39/EC (Occupational exposure limit values);
Dir. 2006/8/CE.
Regulation (CE) n. 1272/2008 (CLP)

15.2. Chemical Safety Assessment
Information N/A.

SECTION 16: Other Information

- Customs Tariff Number 84241000
- HS CODE # 292990

Main bibliographic sources:

- ECDIN - Environmental Chemicals Data and Information Network - Joint Research Centre, Commission of the European Communities
- Analysis and test report by the Polytechnic of Turin, Science of Material & Chemical Engineering Department

ADR: European Agreement concerning the International Carriage of Dangerous Goods by Road.

ATL: Atmospheric Life Time

CAS: Chemical Abstracts Service (division of the American Chemical Society).

CLP: Classification, Labeling, Packaging. Regulation No. 1272/2008.

DCDA: Dicyandiamide

DSD: Directive 67/548/EEC.

EINECS: European Inventory of Existing Commercial Chemical Substances.

GHS: Globally Harmonized System of Classification and Labeling of Chemicals.

GWP: Global Warming Potential

HS Code: Harmonized System Code

IATA: International Air Transport Association.

IATA-DGR: Dangerous Goods Regulation by the "International Air Transport Association" (IATA).

ICAO: International Civil Aviation Organization.

IMDG: International Maritime Code for Dangerous Goods.

N/A.: Not available

ODP: Ozone Depletion Potential

PBT: Persistent bio accumulative and Toxic

RID: Regulation Concerning the International Transport of Dangerous Goods by Rail.

TLV: Threshold Limiting Value.

TWATLV: Threshold Limit Value for the Time Weighted Average 8 hour day. (ACGIH Standard).

vPvB: Very Persistent and very bio accumulative

Comply with Manufacturer's installation and maintenance procedures

EUH210: Safety data sheet available on request.

Revision #5	February 16, 2017

WARRANTY

All fire suppressant products carry a 3 year warranty after date of shipment against defects in materials and workmanship under conditions of normal use. Any product found defective within this period shall be replaced or repaired at Stelvio Brands Inc. ("Distributor") discretion.

Distributor's warranty, terms and conditions apply in all cases. No other warranty express or implied is valid. Distributor shall not be liable or responsible, however, for any defects attributed to normal wear and tear, erosion or corrosion or improper storage, use or maintenance, negligence. In addition, Distributor shall not be liable for any defects arising from alteration or modification, nor from consequential incidental damages. Buyer shall give Distributor an opportunity to investigate. Transportation charges for the return of fire suppressants to Distributor shall be prepaid by Buyer.

Notice to reader: information presented herein has been compiled from sources considered to be dependable and is accurate and reliable to the best of our knowledge and belief but is not guaranteed to be so. Nothing herein is to be construed as recommending any practice or any product in violation of any patent or in violation of any law and regulation. It is the user's responsibility to determine for himself the suitability of any material for a specific purpose and to adopt such safety precautions as may be necessary.
